

## **FAMILY WEEKEND AT THE EURO SPACE CENTER**

Spend an unforgettable family weekend at the Euro Space Center. We offer several tailor-made programmes lasting one or two days, to experience how astronauts train in unique surroundings. Discover the demands of life in space and test your knowledge.

Train on one of our many simulators, such as our moonwalk chair, which replicates gravity on the Moon, the zero-gravity wall, which simulates a space walk, or the multi-axis chair, which poses something of a challenge...

You will eat high quality fare in our restaurant, then get a well-deserved night of rest in one of our space-themed rooms, before setting off on further adventures.

The next day, we head for Houston. Prepare for shuttle take off! The whole family will need to pull together to make the mission a success. Parents and children will all have to help build the micro-rocket. Go on, it's your turn!
